

ORCID iD quick start guide for Symplectic Elements

An ORCID iD is a persistent digital identifier that distinguishes you from every other researcher. Having a unique identifier ensures that the bibliometric data about you and your body of work is accurate and correctly linked to your researcher profile. Further information can be found on the Library webpages on [ORCID identifiers](#).

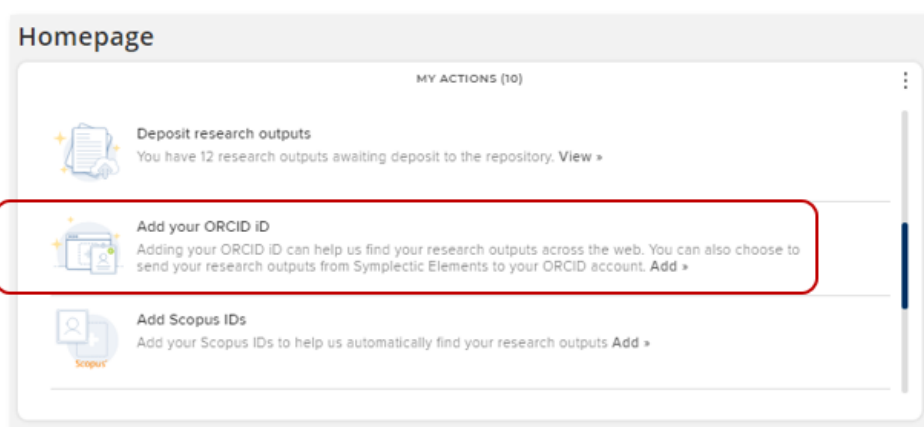

Linking your ORCID iD to your Symplectic Elements profile helps in several ways, and can be configured to:

- Automatically claim publications that include your ORCID (page 1)
- Write selected records from Symplectic Elements to your ORCID account (page 4)
- Write your affiliation to the University of Leeds to your ORCID account (page 5)

Automatically claim publications that include your ORCID iD

Follow the below steps to add your ORCID iD and set up automatic claiming in Symplectic Elements. This can be done by creating a new ORCID account or by connecting to an existing ORCID account.

1. Log in to Symplectic Elements <https://publications.leeds.ac.uk/> using your IT username and password. You will be taken to your Homepage.
2. In the 'My Actions' tile (either carousel or list view), find either 'Add your ORCID iD' or 'Connect your ORCID iD', and click on the linked text.

3. This will take you to the ORCID website. Either:
 - Sign in with your existing ORCID account

Or

- If you don't have an ORCID iD yet, you may register for one now. Follow the prompts to enter personal details and create a password. NB: It's a good idea to include an **Additional email** in case you need to reset your password.

The screenshot shows the first step of the ORCID iD creation process. At the top, there are three numbered tabs: 1 (selected), 2, and 3. Below the tabs are three labels: 'Persona...', 'Security and noti...', and 'Visibility and...'. The main heading is 'Create your ORCID iD' with the subtext 'This is step 1 of 3'. A note states: 'Per ORCID's [terms of use](#), you may only register for an ORCID iD for yourself. Already have an ORCID iD? [Sign In](#)'. The form contains five input fields: 'First name' (with 'An' entered), 'Last name (Optional)' (with 'Other' entered), 'Primary email', 'Confirm primary email', and 'Additional email (Optional)'. There are help icons (question marks) next to the 'First name' and 'Additional email' fields.

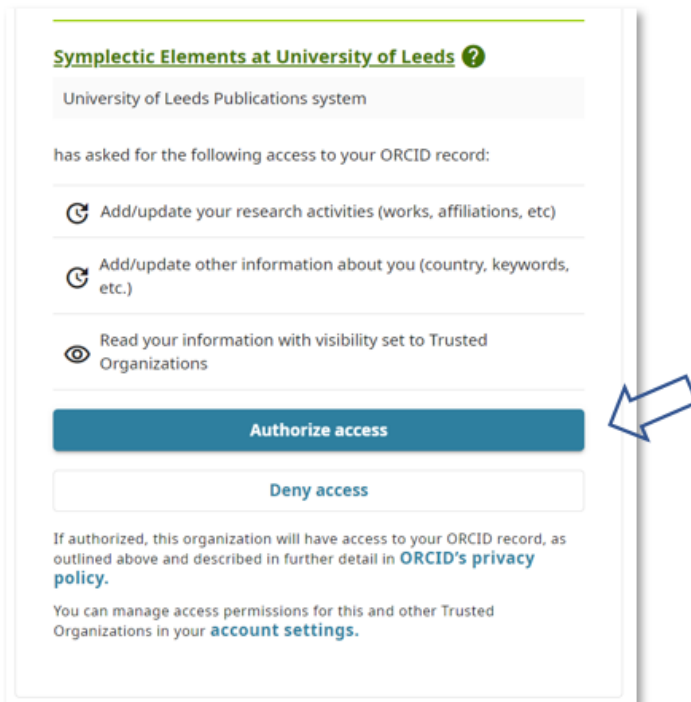

You will be prompted to specify your default visibility settings. ORCID and the Library recommends setting visibility to 'Everyone'. Visibility can be updated later and can be set for different data types or even individual records.

The screenshot shows the third step of the ORCID iD creation process. The heading is 'Create your ORCID iD' with the subtext 'This is step 3 of 3'. The section is titled 'Visibility settings'. A paragraph explains: 'Your ORCID iD connects with your ORCID record that can contain links to your research activities, affiliations, awards, other versions of your name, and more. You control this content and who can see it.' Below this, a question asks: 'By default, what visibility should be given to new items added to your ORCID Record?'. There are three radio button options: 'Everyone (87% of users choose this)' (selected), 'Trusted Organizations (5% of users choose this)', and 'Only me (8% of users choose this)'. A blue arrow points to the 'Everyone' option. At the bottom, there is a link: 'More information on visibility settings'.

- When you have created or connected your account you will be asked to authorise access to your ORCID record for Symplectic Elements at University of Leeds. You'll then be returned to

Symplectic Elements.

Symplectic Elements at University of Leeds ?

University of Leeds Publications system

has asked for the following access to your ORCID record:

-  Add/update your research activities (works, affiliations, etc)
-  Add/update other information about you (country, keywords, etc.)
-  Read your information with visibility set to Trusted Organizations

Authorize access

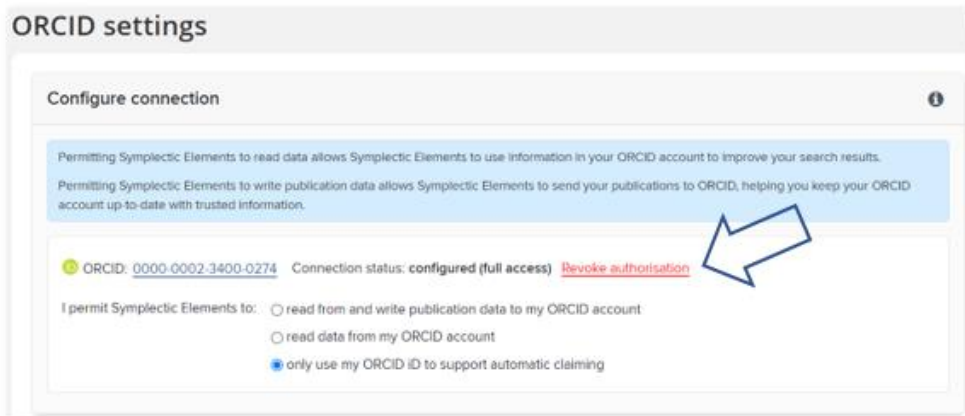

[Deny access](#)

If authorized, this organization will have access to your ORCID record, as outlined above and described in further detail in [ORCID's privacy policy](#).

You can manage access permissions for this and other Trusted Organizations in your [account settings](#).

The University of Leeds now has permission to access your ORCID profile, and will automatically claim any records that include your ORCID.

You can manage or revoke permission at any time from Symplectic Elements via: Menu > My Profile > Settings > ORCID Settings, and then clicking on the 'Revoke authorisation' link. Revoking authorisation will prevent Symplectic Elements from interacting with ORCID, and your permissions will be changed to 'only use my ORCID id to support automatic claiming'.

ORCID settings

Configure connection

Permitting Symplectic Elements to read data allows Symplectic Elements to use information in your ORCID account to improve your search results.

Permitting Symplectic Elements to write publication data allows Symplectic Elements to send your publications to ORCID, helping you keep your ORCID account up-to-date with trusted information.

 ORCID: [0000-0002-3400-0274](#) Connection status: **configured (full access)** [Revoke authorisation](#)

I permit Symplectic Elements to:

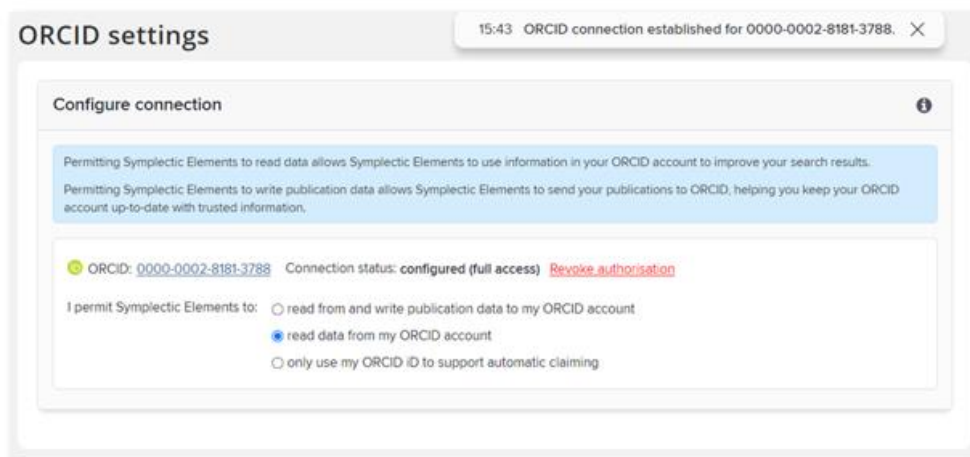

- ☐ read from and write publication data to my ORCID account
- ☐ read data from my ORCID account
- ☒ only use my ORCID id to support automatic claiming

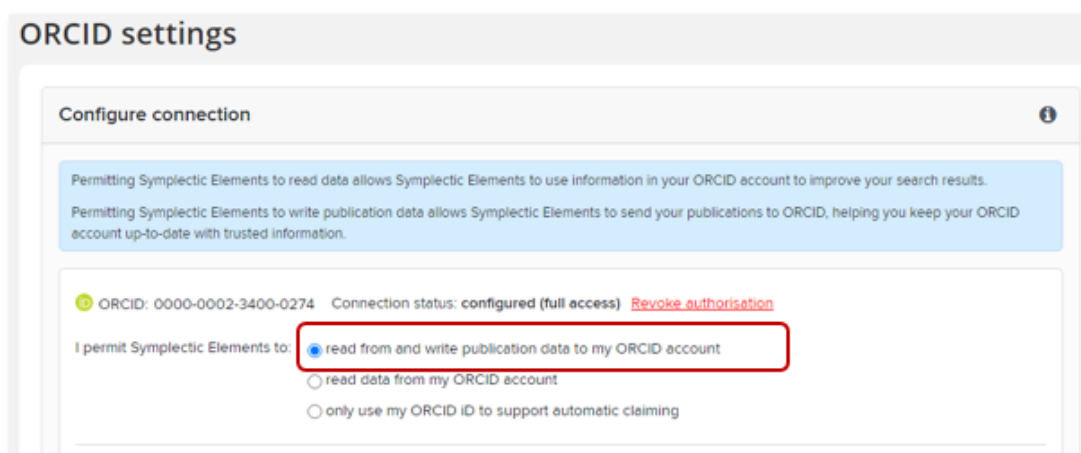

Write selected records from Symplectic Elements to your ORCID account

Once you've added your ORCID iD to Symplectic Elements, you can also permit Symplectic Elements to send selected publications to ORCID, helping you keep your ORCID account up-to-date.

1. Navigate to ORCID Settings in Symplectic Elements via: Menu > My Profile > Settings > ORCID Settings. By default the system will be set to read data.

2. Change the setting to 'Read from and write publication data to my ORCID account'.

3. Selecting this option will enable you to manage which publications will be sent to your ORCID account. Your options are:
 - For journal articles, send 'published' and 'published online' only
 - Send all publications to ORCID including those with privacy levels of Private or Internal
 - Only send favourite publications

Check **any or all** of these options, save your choice(s) and click on **Run Sync**.

You can remove these publications at any time by clicking 'Remove from ORCID'.

Write your affiliation to the University of Leeds to your ORCID account

Once you've permitted Symplectic Elements to read from and write data to your ORCID account, you can choose to send a standardised affiliation to ORCID. This affirms your official affiliation and improves the data in the public domain for use by third party systems.

1. Navigate to ORCID Settings in Symplectic Elements via: Menu > My Profile > Settings > ORCID Settings.
2. Click the 'Send affiliation' button to send a standardised affiliation to ORCID.

You can delete the affiliation from your ORCID account at any time. See the ORCID support website for instructions on how to [Delete a membership or service affiliation](#).

Further information

Help and user guides for Symplectic Elements can be found via the 'Help' menu at the top right of the Home page:

Further information can also be found via the [IT Service Desk](#) or the Library's [Open Access](#) pages.

For general Symplectic Elements queries, please contact the [IT Service Desk](#) or telephone: +44 (0)113 343 3333.
